Logan Mondal Bhamidipaty

loganmb@cs.stanford.edu / https://logan-mondal-bhamidipaty.com/ / +1 (408) 680-4736

EDUCATION

Stanford University   Expected Graduation: June 2025
M.S. in Computer Science, Artificial Intelligence   GPA: 4.0+
B.S. in Mathematics   GPA: 3.8

<u>Relevant Coursework</u>: Reinforcement Learning, Sequential Decision Making, Algorithmic Game Theory, NLP, Causal ML, Convex Optimization, Stochastic Processes, Linear Algebra, Market Design

Oxford University (Stanford Bing Overseas Studies Program)   Fall 2023
<u>Tutorial</u>: Graph Neural Networks and Generative Models for Drug Discovery

ACADEMIC EXPERIENCE

Research Assistant, Stanford AI for Human Impact (AI4HI)   Sep 2024 – Present
Advised by Emma Brunskill
- Working on data-efficient strategies for decision policy alignment.

Research Assistant, Stanford Intelligent Systems Laboratory (SISL)   Jan 2024 – Present
Advised by Mykel Kochenderfer and Trevor Hastie
- Developing open-source Julia packages for exponential family PCA and belief compression.

Research Assistant, Stanford Intelligence through Robotics at Scale (IRIS)   Jun 2023 – Present
Advised by Chelsea Finn
- Scaling RLHF methods for VLMs in multi-task, language-conditioned learning.
- Devised a new algorithm for POMDP exploration using ideas from meta-RL.

Research Assistant, Stanford Brains in Silicon   Jun 2022 – Jan 2024
Advised by Kwabena Boahen
- Published a platform for dynamical systems identification inspired by OpenAI's Gym.

Research and Teaching Assistant, Stanford Department of Economics   Sep 2022 – Jun 2023
Advised by Paul Milgrom
- Wrote a 13-chapter market design course reader with proofs and online exercises.
- First non-PhD TA: taught section, held office hours, graded research papers.

PROFESSIONAL EXPERIENCE

Economic Consultant, Auctionomics   Feb 2024 – Present
- Support Nobel laureate Paul Milgrom's expert testimony and advise defense counsel in *United States v. Google LLC* (online display advertising antitrust case).
- Conduct theoretical, empirical, and simulation analysis of auction design and strategy, create presentations for non-specialists, and help write expert reports.

PAPERS   *denotes equal contribution
